

Organization Structure

for Microsoft Dynamics CRM 4.0

Organization Structure

Organization Structure is a Dynamics CRM add-on that allows you to display customer organization in a graphic tree view. Out of the Box Dynamics CRM functionality presents only subaccounts for selected Customer.

Organization Tree presents selected customer Organisation with its all Parent and Children records. The highest level in the tree view is the top level in Organization (number of displayed records depends on user security role).

Click the minus signs to collapse the tree view.
