

Price List Utilities

for Microsoft Dynamics CRM 3.0

Price List Utilities

Price List Utilities is an easy to use tool that helps maintain your company price lists. An intuitive wizard guides you through the price list related procedures. With DPS Price List Utilities keeping your company Price Lists Up to Date becomes a quick and easy process.

Use Price List Utilities to:

- Add new price list items to range of your product
- Copy price list information from one product to another
- Modify existing price list information
- Remove unused price list detail from Microsoft Dynamics CRM
- Import new or update existing price list items from a file
