

Activities Mass Update

For Dynamics CRM 2013

Activities Mass Update

- Activities Mass Update helps to perform daily tasks even more quickly and efficiently.
- Close or Cancel range of selected Dynamics CRM Activities at once.

The screenshot shows the Dynamics CRM interface with a list of activities selected. A context menu is open over the list, and the 'Activities Mass Update' option is highlighted with a red box. The list of activities includes various types such as Campaign Response, Service Activity, and Task, with columns for Activity Type, Subject, and Regarding. The 'Activities Mass Update' option is located at the bottom of the context menu.

Activities Mass Close

You have selected 82 activities to close.

 Campaign Activity	Closed
 Campaign Response	Closed
 Phone Call	Made
 Service Activity	Completed
 Task	Completed
