License agreement	END USER SOFTWARE LICENSE AGREEMENT - PLEASE READ THIS AGREEMENT CAREFULLY					
	By installing, copying or otherwise using the SOFTWARE, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, the LICENSOR is unwilling to license the SOFTWARE to you. In such event, you may not use or copy the SOFTWARE, and you should promptly contact the LICENSOR for instructions on return of the product.					
	THIS IS A LICENSE AGREEMENT ("AGREEMENT") BETWEEN DYNAMICS PROFESSIONAL SOLUTIONS LTD ("LICENSOR"), AND YOU ("LICENSEE" OR "YOU") FOR USE OF THE ACCOMPANYING SOFTWARE AND USER DOCUMENTATION (THE "SOFTWARE"). LICENSOR IS WILLING TO GRANT YOU THE LICENSE TO USE THE SOFTWARE ACCORDING ONLY ON THE CONDITION THAT YOU ACCEPTS ALL TERMS IN THIS AGREEMENT.					
	The SOFTWARE includes computer software, the associated media, any printed materials, and any "online" or electronic documentation.					
	1. COPYRIGHT. The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. All title and copyrights in and to the Software and any printed or electronic materials accompanying the Software are owned by the Licensor or its suppliers.					
	2. GRANT OF LICENSE. This EULA grants you the following rights: Software Installation and Use.					
	3. RESTRICTIONS. You may not delete or obscure any copyright, trademark or other proprietary notice on the Software or accompanying printed materials. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software. You may not copy, rent, lease, sublicense, distribute, publicly display the Software, create derivative works based on the Software or otherwise commercially exploit the Software. You may not "hack," "crack," or otherwise attempt to circumvent any copy protection, access control, or license-enforcement mechanisms associated with or related to the Software. You may not electronically transmit the Software from one computer, console or other platform to another or over a network. You may not use any backup or archival copy of the Software for any purpose other than to replace the original copy in the event it's destroyed or becomes defective.					
	4. TERMINATION. This Agreement is effective until terminated. You may terminate this Agreement at any time by destroying the Software. This Agreement will terminate automatically without notice from Licensor if you fail to comply with any provision of this Agreement. Upon notice of termination, you agree to promptly destroy all of your copies of the Software. All provisions of this Agreement as to warranties, limitation of liability, remedies and damages will survive termination.					
	5. LIMITED WARRANTY					

THIS SOFTWARE IS LICENSED "AS IS." THE COMPANY MAKES NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE, REGARDING THE SOFTWARE. THE COMPANY DOES NOT WARRANT, GUARANTEE OR MAKE ANY REPRESENTATIONS REGARDING THE USE OR THE RESULTS OF THE USE OF THE SOFTWARE IN TERMS OF ITS CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS OR OTHERWISE. THE ENTIRE RISK AS TO RESULTS AND PERFORMANCE OF THE SOFTWARE, AND ITS INTERACTION WITH OTHER EQUIPMENT OR SOFTWARE OWNED OR USED BY YOU, IS ASSUMED BY YOU. SOME TERRITORIES DO NOT PERMIT THE EXCLUSION OF IMPLIED WARRANTIES. THE ABOVE EXCLUSION MAY NOT APPLY TO YOU.

IN NO EVENT WILL THE COMPANY, AND ITS DIRECTORS, OFFICERS OR AGENTS (COLLECTIVELY THE COMPANY) BE LIABLE TO YOU FOR ANY CONSEQUENTIAL, INCIDENTAL OR INDIRECT DAMAGES (INCLUDING DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, AND THE LIKE) ARISING OUT OF THE USE OR THE INABILITY TO USE THE SOFTWARE EVEN IF THE COMPANY INC. HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL DAMAGES, THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

This manual provides guidelines for installing and setting up Import Tool for Microsoft Dynamics CRM version 2016. It lists system requirements, contains step-by-step guide through the installation process, gives tips on troubleshooting and describes post installation configuration procedures.

The manual is divided into the following sections:

Introduction

In this chapter you can find basic information about Import Tool, its licensing and compatibility with Dynamics CRM.

Installation

In this chapter you can find information about system requirements, how to install and uninstall Import Tool. It also contains information about post installation configuration procedures.

This section contains a list of the supported databases and operating environments for Import Tool module, as well as the recommended system requirements for servers and client computers.

Import Tool Overview

Import Tool is a powerful application specifically designed to simplify the data import to Microsoft Dynamics CRM. It allows you to import or update all core entity types (Account, Contact, Lead, etc.), all elements of Product Catalog or any custom entities.

With the Import Tool you can:

- Import data from different sources:
 - o SQL Server
 - o Microsoft Excel
 - Text files (csv, txt, xml)
 - Any ODBC data provider
 - Email mailbox using POP3 or IMAP protocol
 - Or you can develop your own data source plugin.
- Save import project containing mapping schema, use functions to transform the input data, create custom scripts and much more.
- Use different import modes: import new records, update existing records, perform both at the same time, delete unwanted records or change record status (for example activate, deactivate, etc.).
- Import data into custom entities and fields.
- Run import process from a command line which can be used to automate or schedule the import process.

Versions

Import Tool comes in two versions: Data Migration version and Full version.

Data Migration version is designed for the initial data imports and will work only for 60 days. This version should help customers to import essential data into Microsoft Dynamics CRM, test and make all necessary data updates at the beginning of the implementation process.

Full version is ideal for initial and on-going data imports as it has no expiration date. This is the best choice for customers that require regular updates to the data stored in Microsoft Dynamics CRM, for example when price lists need to be updated regularly, new products are frequently imported and so on.

In addition to that, Import Tool is divided into 7 modules which allow importing or updating different groups of entities. Customers that do not need to import all types of records can choose only a single module or multiple modules that are critical for their business. Furthermore import of custom entities is always included when at least one module is registered.

Below table lists the modules available and Dynamics CRM entities they will allow to import.

Module	Dynamics CRM Record	Dynamics CRM Entities
Customer Records	Account	account
	Address	customeraddress

Demo Licenses

Import Tool is licensed per Organization. Downloaded version is fully functional limited to importing or updating 5 records only. This is the only restriction when no registration key has been entered. Evaluation license is not needed.

Compatibility

Import Tool 2016 is compatible with all deployment types of Microsoft Dynamics CRM 2016.

In this chapter you can find information about system requirements, how to install and uninstall Import Tool. It also contains information about post installation configuration procedures.

System Requirements

This chapter contains a list of the supported databases and operating systems, as well as components that must be installed on a server before you can start Import Tool installation process.

Supported operating systems

Windows 10 (64-bit and 32-bit versions) Windows 8.1 or Windows 8 (64-bit and 32-bit versions) Windows 7 Service Pack 1 (64-bit and 32-bit versions) Microsoft Windows Server 2012 R2 Microsoft Windows Server 2012 Microsoft Windows Server 2008 (32 and 64 bit) Microsoft Windows Server 2008 R2

Required components

Microsoft .NET Framework 4.5.2 Full – installer will download it and install if needed or alternatively you can download it and install separately from: http://www.microsoft.com/download/en/details.aspx?id=17718 The Import Tool installation does not have to be performed on the Microsoft CRM server. You must have administrator privileges in order to run the installation.

1. Installation file

- a. Unzip ImportTool_2016.zip file.
- b. Launch ImportTool_2016.exe.

2. Components

There are three components that will be installed by the installer (if not installed already):

- Microsoft .NET Framework 4.0 Full installer will download it if required or you can install it separately from Microsoft: <u>http://www.microsoft.com/download/en/details.aspx?id=17718</u>
- Windows Identity Framework components
- Import Tool 2016

Installation can take few minutes to complete.

8. Installation Complete

Click "Finish" button to close the installation wizard.

1. Go to All Programs and find "DPS Limited" folder

If you are using 32-bit version of Windows the following shortcuts will be available:

- Import Tool 2016
- Import Tool 2016 Command Line

If you are using 64-bit version of Windows there will be two more shortcuts available:

- Import Tool 2016 (32-bit)
- Import Tool 2016 Command Line (32-bit)

Both 32- and 64-bit versions are fully compatible with Dynamics CRM 2016 and provide the same functionality. The only difference is that if you want to use for example Excel file as your data source and you are running 64-bit Windows, there is no 64-bit ODBC provider for Excel and you will have to use 32-bit version of the Import Tool. And this is the only reason why we are providing 32-bit version of the Import Tool.

2. Select "Import Tool 2016"

This will start the Import Tool application.

3. Connection Configuration

When running the Import Tool for the first time you will be asked to create a new connection.

Click "OK" to continue.

Click "New" button. "Connection Editor" window will open. It has four tabs:

 Connection Editor

 General
 Login
 License
 Data Access

 Name:
 DPS

 Notes:
 Notes:

 d7d5e0b2-8371-47eb-b3e0-54c100687eef

 Image: Default connection

 Test
 OK

Specify the name for your connection. You can also add some notes (optional). If you tick "Default connection" then the connection you are creating will be selected when launching the Import Tool next time (assuming you have more than one connection available, otherwise if there is only one connection it is always treated as a default).

General

Login

Connectio	n Editor	×
General	Login Lice	nse Data Access
œ2	Server URL:	https://10.0.0.87:5555/ Use current user credentials Microsoft Office 365 Provider
	User: Domain:	
	Password:	Save password
	Organization:	DPS 🗸 🔄
Test		OK Cancel

Enter the URL of your CRM server. If you are connecting to the local CRM installation using Active Directory authentication you can tick "Use current user credentials" if you want to use credentials of the currently logged on user. If you are connecting to other type of CRM deployment (Live, IFD, etc.) you have to provide user name and password and optionally domain name. If you don't want to be prompted for the password every time application starts, make sure that "Save password" is ticked.

Click a to populate the organizations and select the organization you want to connect to. At this stage you can test your connection by clicking "Test" button.

Connectio	on Editor		2

Test		OK Cancel	

Enter your registration key if you already have it. You can always enter the registration key later using this window or from the Main Menu by going to Tools \rightarrow Registration. Without registration the application is fully functional, but is limited to process (import) first five records only.

• License

• Data Access

Connection Editor	×
General Login License Data Access	
Organization web service (On-premises, IFD, Live) Organization SQL database (On-premises only)	
SQL Server:	~
Database:	~
Test OK Ca	ancel

Data Access settings specify how the organization data is accessed. There are two modes:

- Organization web service this is recommended setting. When selected, CRM data will be accessed using the CRM web services only.
- Organization database this option can be enabled to improve performance when accessing the CRM data (database is used for read operations only). However this can only be used in onpremises installation types as you will have to specify SQL Server and Database that should be used (make sure that it matches the selected organization).

Connection Manager can be access from the main menu: Connections \rightarrow Manage.

Once your connection has been defined, click "Connect".

4. Progress window will be displayed:

It can take couple minutes for the first time to complete.

5. Product Registration

The downloaded version of the Import Tool contains a fully functional product with a limit of five records that can be processed (created, updated, etc.). This restriction is waived upon product registration.

If you purchased a license key then select Tools \rightarrow Registration from the Main Menu and enter your registration key. Or click the "Unregistered Version" link displayed in the status bar.

You can also enter the registration information in the Connection Editor window (License tab).
